LIVE THE YAS LIFE

A modern, multi-story building with large glass windows and balconies, set against a sunset sky. A couple is standing on a balcony on the left, looking out at the ocean. The building has a curved, cantilevered design. The sky is a mix of orange, pink, and purple. The ocean is visible in the background, and some palm trees are visible in the foreground.

DISTINCT DESIGN

Defined by its distinctive architectural vision, the development is crafted to embody a resort-style living experience. The design harmonizes light and water to shape elegant, expressive forms, while natural materials integrate seamlessly to create a contemporary aesthetic that is warm, refined, and timeless.

DESIGN LEGACY

Inspired by some of the world's most iconic examples of modern architecture—such as the Barcelona Pavilion, built in 1929 and celebrated for its minimalist form and masterful use of space—the Yas Riva Residence carries this legacy forward. It reinterprets the timeless principles of proportion, simplicity, and connection with nature, creating a home that stands as a contemporary architectural statement on Yas Island.
