CHAIRMAN'S MESSAGE

The Dubai Quality of Life Strategy 2033, approved and launched by H.H. Sheikh Hamdan bin Mohammed bin Rashid Al Maktoum under the visionary leadership of H.H. Sheikh Mohammed bin Rashid Al Maktoum, places the wellbeing of individuals at the heart of the city's development. It recognises that a great city is measured not only by what it builds, but by how its people live. At Meraki, we are proud to answer that call with Nirvana Residences-I.

Located in Me'aisem, Nirvana Residences-I is thoughtfully positioned to offer closeness to the city's pulse while remaining a step removed from its noise. But location is only the beginning. Amenities are distributed across multiple levels - from a fully equipped gym, padel court, and infinity pool at the podium, to the 'Nirvana Groves' offering quiet wellness zones on higher floors, to a convertible community hall and co-working spaces on the rooftop. Each space serves a purpose: nurturing the individual while building the community.

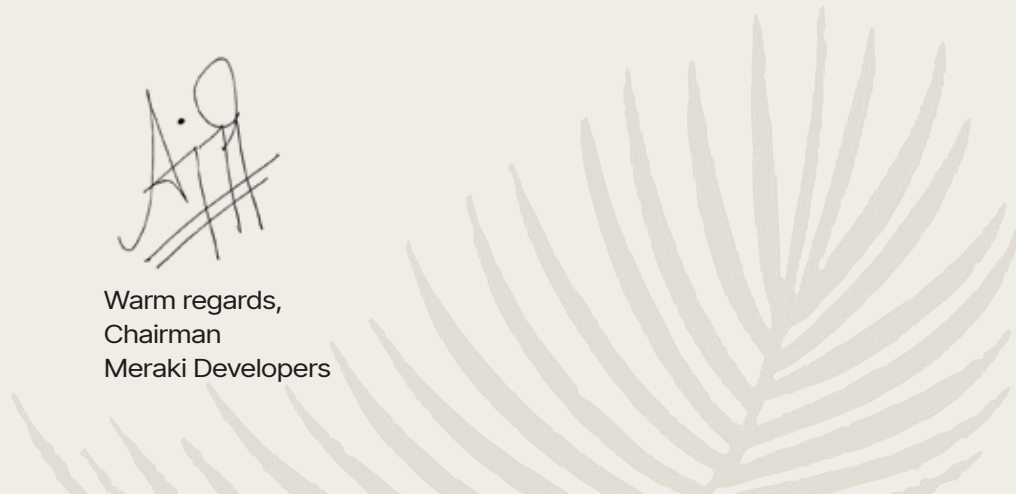

At Meraki, we believe harmony is not found by chance. It is designed. Every decision at Nirvana Residences-I from the distribution of amenities to the proportions of each residence - reflects our commitment to creating spaces where individuals flourish and communities thrive. With Nirvana Residences-I, we continue our dedication to purposeful development and refined living.

We look forward to welcoming residents who, like us, are looking to

COME HOME TO HARMONY

Warm regards,
Chairman
Meraki Developers

COME HOME TO HARMONY

Harmony is a word often used and rarely experienced. It is the quiet confidence born of balance - when competing yet desirable qualities no longer pull against each other but settle into place. Your home. Your time. Your life.

Nirvana Residences-I is built on this belief. A **22-storey** residential tower in Me'aisem, it offers **392 Residences - studios, one-, two-, and three-bedroom** homes - each designed with the understanding that a home should support life, not compete with it.

This begins with place. Me'aisem sits at a considered distance from Dubai busiest corridors - connected enough for convenience, removed enough for comfort. It continues with structure. Nirvana Residences-I amenities are among the most complete you'll find - and they don't compete for space on a single floor. Fitness, wellness, leisure, and community are spread across the building. Wherever you are, something you need is close at hand.

Nirvana Groves are a signature detail that turns a residence into a retreat - green wellness zones spread into multiple floors, offering moments of calm without the effort to find them. A pause between your door and your day.

All of this finds its final expression in the residences themselves - generous layouts, natural light, and finishes that feel as good in ten years as they do on the first day.

**AT NIRVANA RESIDENCES-I, HARMONY IS A COMMITMENT -
ONE YOU COME HOME TO, EVERY DAY.**

SPACE FOR YOURSELF. SPACE FOR EACH OTHER

Nirvana Residences-I is designed for both - the moments you need alone and the ones you want to share.

At ground level, a welcoming entrance lounge for receiving guests or catching up with neighbours. At the podium, life unfolds in full - train, swim, play, or simply be still. Children have spaces of their own, with a parents' lounge where watchful eyes meet new neighbours. And when evening comes, an outdoor cinema and BBQ area bring the community together.

At the rooftop, a community hall transforms for celebrations, co-working spaces offer productive days away from your apartment, a gaming room with a lounge area for exciting match days, and a landscaped balcony with panoramic views for when you need some thing quieter.

THE INDIVIDUAL NURTURED. THE COMMUNITY CELEBRATED.

THOUGHTFUL DESIGN. HOLISTIC LIVING

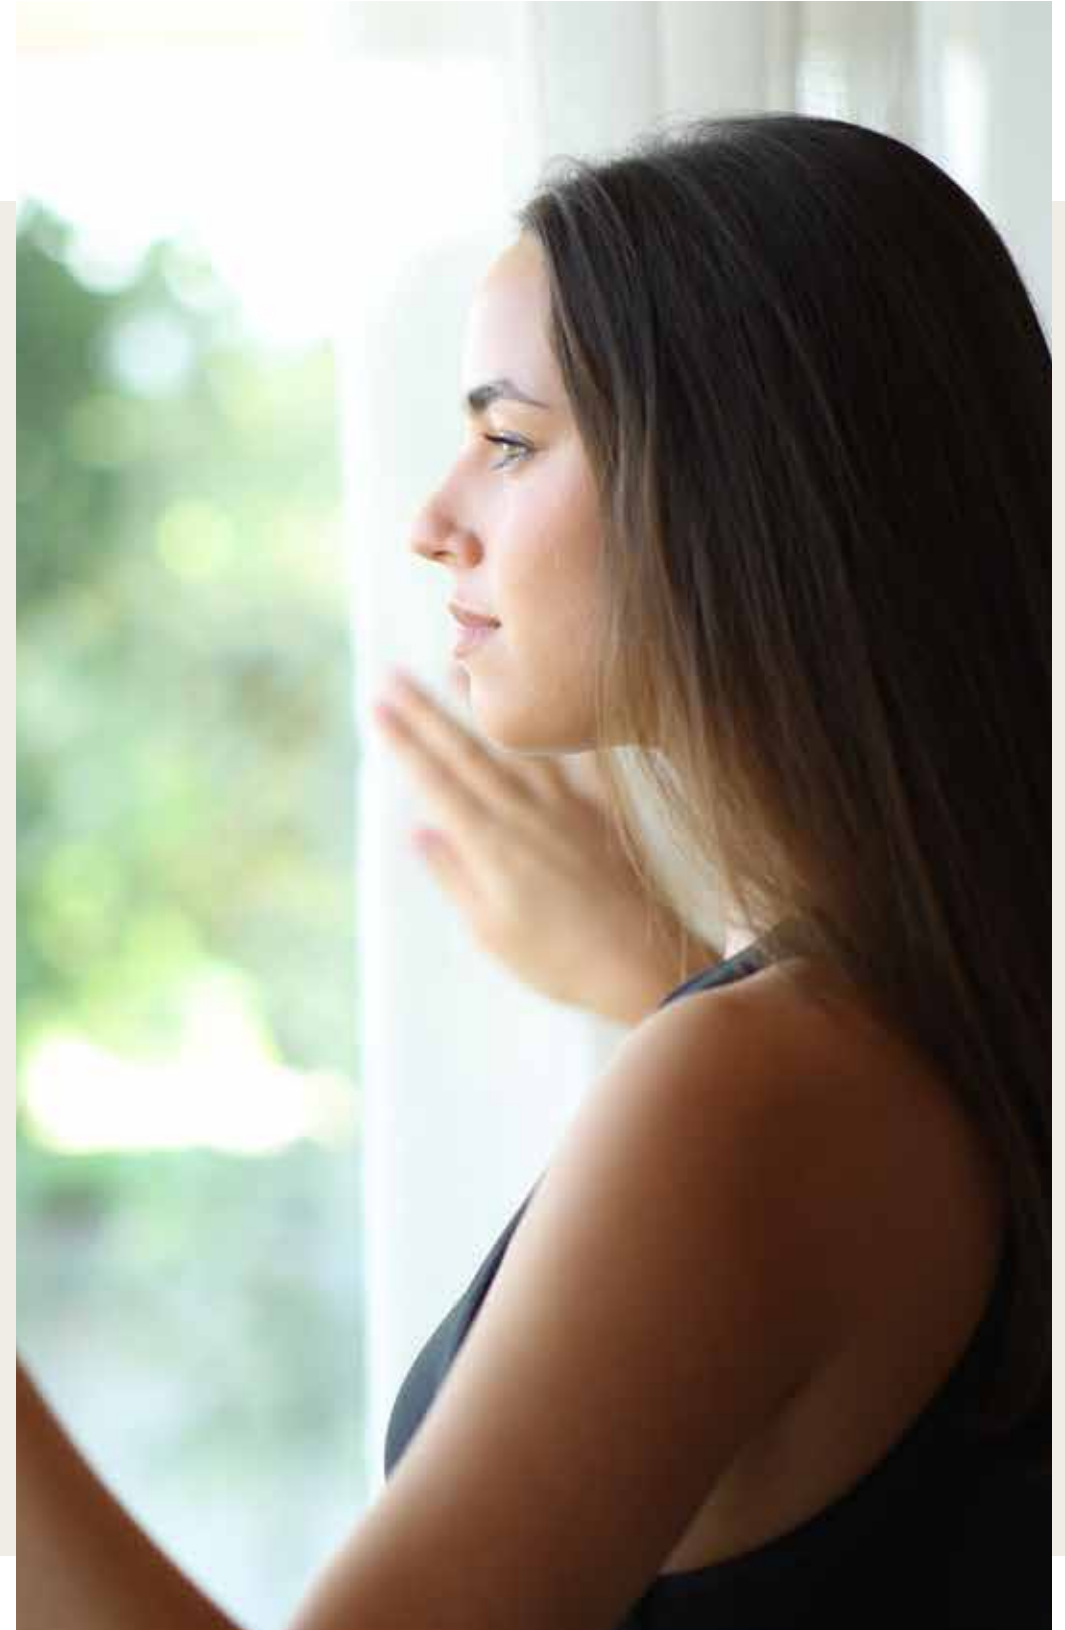

Inside Nirvana Residences-I, every residence is shaped by three principles: continuity, tactile depth, and composure.

Spaces flow with a seamless rhythm - each room connected to the next in one coherent experience. Materials are chosen for their honesty, their texture, their interplay of light and shadow. Finishes carry the signature attention to detail that Meraki Developers is known for - precision that you feel before you notice. The result is quietly elegant - confident enough to let authenticity speak for itself.

From studios to spacious three-bedroom homes, each unit offers generous proportions - **studios** from 405 sq.ft. up to 464 sq.ft., **one-bedroom** homes from 722 sq.ft. up to 1,052 sq.ft., **two-bedroom** homes stretching from 1,215 sq.ft. up to 1,744 sq.ft., and **three-bedroom** homes starting from 1,653 sq.ft. up to 2,092 sq.ft.

These are homes that support daily life without demanding attention. Uncluttered, considered, and composed. A reflection of the harmony that defines Nirvana Residences-I itself.

CALM BEGINS AT THE ENTRANCE. AND RISES WITH YOU.

At Nirvana Residences-I, wellness starts the moment you arrive. A warm entry pavilion with a green plaza and private landscaped walkways welcomes you home to a grand entrance lobby. At the podium, the tone deepens - meditation seating with water features, yoga decks open to the sky and viewing decks.

Higher up, our signature Nirvana Groves appear - green wellness zones with pocket seating spread across multiple floors. Quiet corners for calm closer to home. At the rooftop, two more shaded wellness zones complete the journey.

Wherever you are in the building, a moment of stillness is never far.

ARRIVE TO PEACE. BASK IN HARMONY.
